The goal of the Pacific Lutheran University Valley of the Kings Project has been to investigate several of the undecorated and typically smaller tombs found amongst the larger tombs in Egypt's New Kingdom royal cemetery. Over the years, the project has excavated 11 such tombs including KV 60 (with its purported mummy of Hatshepsut), KV 21 (two 18th dynasty royal women), KV 48 (the vizier of Amenhotep II), and three small tombs KV 50, 51, 52) which contained the mummies of animals. The project's director, Donald P. Ryan, will provide a look at some of the expedition's interesting discoveries.

Dr. Donald P. Ryan is an archaeologist affiliated with the College of Liberal Studies at Pacific Lutheran University in Tacoma, Washington, USA, a Fellow of both the Explorers Club and the Royal Geographical Society, and a Research Associate of the Kon-Tiki Museum in Oslo, Norway. A veteran of many field expeditions, he is also the author of numerous scientific and popular articles and several books on archaeological subjects.

If you are not yet a member of the [American Research Center in Egypt \(ARCE\) Orange County Chapter](#), now is a great time to [sign up](#). It's your chance to enjoy many [ARCE](#) membership benefits and become part of our mission of facilitating the study, excavation, preservation and renovation of important historical artifacts and sites from the Pharaonic through the Medieval Period.

Sincerely,
